

OMA Celebrates 25 Years of Driving Connectivity, Growth, and Mexico's Future

- OMA celebrates its 25th anniversary, having served more than 375 million passengers and solidifying its role as a pillar of Mexico's connectivity.

Monterrey, Nuevo León – September 19, 2025 – Grupo Aeroportuario del Centro Norte (OMA) is celebrating a historic milestone: its 25th anniversary. Since its founding in November 1998, OMA has transformed air connectivity across northern and central Mexico, growing from a regional operator into one of the country's leading airport groups, managing 13 key airports.

This quarter century has been defined by strong growth and an unwavering commitment to the economic and social development of the regions where it operates.

25 Years in Numbers: Connecting Mexico and the World

- More than **375 million passengers** have traveled through OMA airports since 2000.
- **199 domestic and international routes** served by 23 airlines.
- In 2024, OMA welcomed **26.5 million passengers** – 22.7 million domestic and 3.8 million international.
- Monterrey International Airport consolidated its position as Mexico's **fourth busiest airport**, with Phase 1 of Terminal A's expansion completed in 2024.

These achievements are more than numbers; they reflect OMA's commitment to delivering quality services and driving development in the communities it serves.

A Thank You to Those Who Make Success Possible

OMA extends its sincere gratitude to its more than 1,200 employees, whose dedication and professionalism are the heart of the company. Their daily work is essential to achieving service excellence.

The company also recognizes the trust of its airline partners, strategic allies, and international collaborators such as VINCI Airports. As the world's leading private airport operator, VINCI's global network aligns OMA with a shared commitment to sustainable airport management.

"This anniversary celebrates much more than the passage of time. It celebrates the impact we've had on the lives of millions of people. Every flight, every connection, and every story shared is proof of our commitment to Mexico and to the future of aviation." — Ricardo Dueñas, CEO of OMA.

Flying Toward the Future: Vision and Commitment

With a solid foundation and proven track record, OMA is well-positioned to tackle the challenges of tomorrow. The company reaffirms its vision for the future with plans to continue investing in:

- **Modern infrastructure** to ensure efficient operations and an enhanced travel experience, with upgrades at airports in Ciudad Juárez, Durango, Culiacán, Mazatlán, and Torreón.
- **Technological innovation** to remain at the forefront of the airport industry.
- **Sustainability** to grow responsibly while minimizing environmental impact.

As OMA celebrates this quarter-century, it reaffirms its commitment to excellence and the connectivity that brings together people, families, and communities. This milestone is not only an institutional achievement but the foundation of a legacy that will continue to grow.
